

# **Protocols and Forms Overview Scavenger Hunt**

---

*Find the answers to the questions below in the 40101 protocol and list the section of the protocol where you found the answers.*

1. What version of the CTC is being used in this protocol?
2. Can you find the only prior therapy that is allowed for patients on this study?
3. Can you find the two reasons for removing a patient from protocol therapy?
4. Can you find what places the protocol lists to help you decide if an adverse event is expected or unexpected?
5. Can you find the name and title of the person you would contact with questions about patient eligibility?
